Strong-Tie

GSB

Drywall to Steel Screw - Drill Point

GSB is a drywall screw with drill point. Used indoors for fixing drywall boards to steel joists from 1.0 mm up to 2.0 mm. The duplex head prevents the paper on the drywall board from tearing when fastening.

Ominaisuudet

Features

- Cross point head.
- Bugle Head.
- Drill point.
- Metal tapping thread.
- Phospated coating.

Sovellus

Suitable for

- Drywall to Steel
